**Subject:** Microsoft Settlement

Dear Department of Justice:

Please accept the settlement of the Microsoft case. This country has been through enough distractions. Let's see if Microsoft can use their engery to create software to help in this war on terrorism. I bet they will be on the cutting edge of this fight on terrorism and military deployment logistics, etc.

They do not need any more time and money spent in court to defend their company.

Thank you and God Bless America.

Carl Munson, CEO Bay Coffee Service, Corpus Christi, Texas
